- Surveys & Reports
- Cost Planning & Project Programming
- Site & Contract Management
- Health & Safety

The success of any scheme depends on good planning and effective project management and Bellfort Services believe in creating a highly experienced and driven working team right from the start. Our project management services include:

## Surveys & Reports

The compilation of condition surveys, building appraisals and feasibility studies.

## Cost Planning & Project Programming

The preparation of detailed cost estimates, specifications and project programmes from the outset of a project. We provide regular cost and programme reports to enable you to manage your budget and timescales accurately.

## Site & Contract Management

The procurement and management of trades and materials, quality control and project implementation.

## Health & Safety

Acting as both Principal Contractor and CDM Co-ordinator in accordance with the Construction, Design and Management Regulations. We manage day to day health and safety on site and are a Safe Contractor accredited organisation.
