

# security management

- CCTV & Remote Monitoring
- Access Control
- Intruder Detection
- Fire Detection & Warning

Belfort Services are able to design and install comprehensive security management schemes. These include:

## CCTV

Closed Circuit Television from simple one camera monitoring to complex multi camera controlled systems with digital recording.

## Access Control

Discreet single door solutions to fully networked multi site systems:

- Swipe Card Systems
- Proximity readers
- Biometric technology – fingerprint, iris and hand recognition

## Intruder Detection

Protecting assets and people we are able to provide intruder detection systems to suit your organisation, from stand alone alarm systems to 24 hour monitoring.

## Fire Detection & Warning

From alteration of existing installations to suit new layouts to the design of new systems including sprinkler systems, smoke/heat detection and early warning.
